

# How we will work:

- **Google Classroom** will be a critical component of this course. All assignments, rubrics, resources, online discussions and events will be shared through this platform. Students are required to create an account. In addition, all students must have a **gmail account** with their first and last name in the address.
- **Turnitin.com** will be used to submit student work.
- Reminders and alerts will be sent using **remind.com**
- Last but not least, students and parents will be able to access grades through **PowerSchool**.
- **Media:** a complete list of anticipated media is posted online and will be updated through Google Classroom.

## The Essential Ms. Given

*Everything you need to know to survive the year.*
